

The figure displays a hexagonal grid map of the North Atlantic region, showing a numerical data field. The grid covers approximately 40°W to 40°E and 0° to 60°N. Each hexagon contains a number from 1 to 81. A thick red line highlights a specific path through the grid, starting from the bottom left and moving generally northwards with some eastward and westward deviations. The map includes latitude and longitude markings at the bottom: 0°, 20°E, and 40°E.
